

INFORMATION SHEET

WORKS UPDATE

ACOUSTIC SHED AND PILING WORK

We will soon start to erect the steelwork for our acoustic shed, located to the west of our site.

The shed is a large structure: over 20 metres in height, approximately 80 metres long and 30 metres wide. It is intended to contain any noise, light and potential dust during our shaft excavation and future tunnelling works, minimising disturbance to the local community.

As we begin to install the shed over the next few weeks there will be several other activities taking place on site. These will include:

- Continuation of river wall works at west of site
- Final deliveries of our phase three offices, followed by office fit out
- Continuation of piling works towards the west of site
- Hoarding installation (northern side)

In addition to the above we will also soon start our sheet piling works to the south centre of our site on the foreshore.

Where possible, we will use the push piling method. However where this may prove difficult, we will have to use vibratory piling. If either of these methods are not possible, we may use impact (percussive) piling. If this is the case, we will work with and agree the methodology with the local authority and inform you in advance.

The local authority has granted us permission to extend our working hours to complete our sheet piling works due to the restricted time periods for works on the tidal foreshore. These works are due to start at the end of August and will take approximately two months. Our hours for these works will be between Monday and Friday from 08.00 - 20.00, Saturday 08:00 – 16:00.

WHAT TO EXPECT

- Erection of Acoustic Shed
- Continue river wall works to west of site
- Continue piling works
- Commence sheet piling works
- Final office deliveries

DURATION OF WORK

- Works linked to our sheet piling are extended: Monday – Friday 08.00-20.00, Saturday 08.00-16.00
- Remainder of works remain within standard working hours: Monday - Friday 08.00 - 18.00, Saturday 08.00 - 13.00
- One hour start up and shut down periods are permitted either side of these working hours

WHAT WE WILL DO

- Best practical means to minimise noise
